PROFESSIONAL SUMMARY

Final-year HNDIT student (SLIATE - ATI Dehiwala) with a strong Business Analysis foundation in requirements elicitation, UML, BPMN, use-case modelling, gap analysis and SRS documentation. Independently delivered three live platforms end-to-end (AgroNexa LK, FinBridge and a Fund Management System), translating business needs into functional solutions. Practical banking exposure through a People's Bank branch internship, complemented by ongoing Diploma in Banking & Finance. Seeking a Business Analyst internship to apply analytical, documentation and stakeholder-communication skills in a professional environment.

CORE SKILLS

- Business Analysis: Requirement Gathering, UML, BPMN, SRS, Gap Analysis, Process Analysis
- Methodologies: Agile, Scrum, Waterfall, SDLC
- Tools & Platform: Git, GitHub, Figma, Jira
- Technical: JavaScript, React.js, Node.js, Express.js, PHP, MySQL, PostgreSQL
- Banking & Finance Domain: Digital Banking, Commercial Banking Operations

PROJECTS

AgroNexa LK – Smart Farming Platform with Blockchain Inspired Technology for Sri Lanka

React.js, Node.js, Express.js, PostgreSQL, Railway, Vercel

- Elicited and documented functional requirements across three Stakeholder roles (Farmer, Buyer, Seller)
- Modelled end to end business workflows and use cases for equipment rental, Crop order, KYC process
- Designed SHA 256-hash chaining ledger to ensure transaction integrity and traceability
- Defined key business rules including double booking prevention, role-based access, and admin approval workflows.

[GitHub](#) | [Live](#)

Fin Bridge - AI-Based Personal Financial Health & Loan Risk Assessment Platform

Next.js, React, TypeScript, Recharts

- Identified financial-inclusion problems and translated them into clear user roles and system requirements
- Designed alternative credit-scoring model and Grameen-style group-lending workflows
- Created multi-role dashboards (Borrower, Lender, Admin) and a trilingual LKR-based interface
- Documented end-to-end processes for digital wallet, loan marketplace, and EMI repayment tracking

[GitHub](#) | [Live](#)

Fund Management System - HNDIT Group Project

PHP, MySQL, Chart.js

- Gathered and documented requirements for member contributions, expense tracking, and announcements
- Designed role-based processes for Admin and User dashboards
- Modelled fund collection and expense workflows to ensure transparency and process clarity
- Collaborated with a team to deliver a complete solution aligned with documented business requirements.

EXPERIENCE

Internship Trainee

January 2024 - July 2024

People's Bank Sri Lanka, Ukuwela Branch

- Assisted with day-to-day branch banking operations including customer service, account handling, and transaction processing
- Gained practical exposure to core banking workflows, operational processes, and customer interaction patterns
- Developed a strong understanding of financial processes relevant to Business Analysis in the banking sector
